PACKAGE

OPTION FEATURES

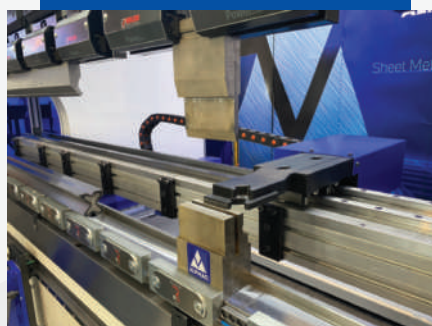

GREEN COLLECTION
ENERGY SAVING

High Quality - Maximum Productivity - Operation Efficiency,
Model C ensures precision bending, production speed and easy application in
the production process. Optimal solutions up to 1000 tons.

Optical Angle
Measurement

Optional Model C

5 AXIS - X+X5+R+Z1+Z2

Optional Model C

6 AXIS - (TOWER TYPE)
X1+X2+R1+R2+Z1+Z2

Optional Model C

MODEL B

Performance Hydraulic Press Brake

40 to
500 Tons

1300 to
6100 mm

210 mm
265 mm

425 mm
480 mm

ENERGY SAVING

High Productivity, Excellent Quality-Price Ratio

A large number of possible configurations allow to perform optimum result. Ideal for large productions, providing an effective reduction of cycle time.

Motorized Crowning

Optional Model A

Optional Model B

Optional Model C

2 AXIS - X+R

Optional Model A

Optional Model B

Standard Model C

4 AXIS - X+R+Z1+Z2

Optional Model B

Optional Model C

MODEL A

Entry Level Hydraulic Press Brake

40 to
320 Tons

1300 to
4100 mm

160 mm
210 mm

375 mm
425 mm

250 mm

Cost-effective solution for your investment

Alpmac Model A Hydraulic press brakes, presenting low investment cost, high productivity and ideal price-performance solution.

Optimized solutions for every investors

Model A- B- C Differences

	Model A	Model B	Model C
Segment	ENTRY	PERFORMANCE	SUPERIOR
Drive-Technology	HYDRAULIC CNC		
Tonnage Range (Tons)	40-320	40-500	40-1000
Bending Length (mm)	1300-4100	1300-6100	1300-6100
Daylight (mm)	375/395/425	425/480	480/525/625
Stroke (mm)	160/210	210/265	265/310/410
Throat Depth (mm)	250	310/410	410/510/600

Alpmac offers a wide range of Hydraulic CNC Presses, starting from entry level Model A to highend Model C series.

Alpmac press brake upper beam don't have any weld parts or stressed parts, all parts are bolted.

Alpmac cylinder covers are phosphate coated and not painted.

All Alpmac models are equipped with 100% Aluminum cast on backgauges. Alpmac have special mold according own desing for ± 0.01 mm repeatability accuracy and ± 0.005 mm positioning accuracy.

There are no welded parts on our advanced backgauges, less weight design provides more agility.
